

RETAIL PRICES - JUNE QUARTER, 1947.

ALL ITEMS - "C" SERIES.

Index numbers for retail prices of all items ("C" Series) for June quarter, 1947, showed a very small increase over the March quarter in all of the Queensland towns for which prices are collected, except Townsville where there was a slight decrease. The index number for Townsville is substantially the highest of those for the six towns, but its relative increase compared with the year 1938-39 is less than in any other of the towns. Index numbers for the June quarter (with base 1000 in 1923-1927 in the six State Capitals) were:- Brisbane 1125, Toowoomba 1141, Rockhampton 1129, Townsville 1169, Bundaberg 1108, and Warwick 1125.

The figures show the following percentage increases when compared with those for the periods shown.

FOOD AND RENT (4 AND 5 ROOMED HOUSES) - "B" SERIES.

Index numbers for food and rent only ("B" Series) for June quarter, 1947 (with base 1000 in 1923-1927 for the six State Capitals) were:- Brisbane 966, Toowoomba 994, Rockhampton 964, Townsville 1028, Bundaberg 937, and Warwick 947.

From March quarter, 1947, to June quarter, 1947, the "B" Series index showed increases in Toowoomba 0.2%, and Rockhampton 0.5%, decreases in Brisbane 0.2%, Townsville 0.1%, and Warwick 0.1%, and remained stationary in Bundaberg.

A drop in the price of meat in all towns was counteracted by increases in the prices of such grocery lines as jam, flour, soap and condensed milk.

The rent index increased 0.3% in Toowoomba and 0.1% in Rockhampton, but remained stationary in all other towns.

Compared with June quarter, 1946, the "B" Series index increased in Brisbane, 3.5%, Toowoomba, 4.4%, Rockhampton, 5.2%, Townsville, 4.6%, Bundaberg, 4.6%, and Warwick, 5.2%.

The rent index showed no movement in Bundaberg, but increases were recorded in Brisbane, 0.1%, Toowoomba, 0.3%, Rockhampton, 1.0%, Townsville, 0.1%, and Warwick, 0.7%.

#### CLOTHING, FOOTWEAR, AND MISCELLANEOUS ITEMS.

Clothing and Footwear prices rose steadily during the early years of the recent war, until they were about 75 per cent. above their pre-war level by June, 1943. The "Price Ceiling" policy was introduced early in 1943, and the clothing and footwear index declined slightly from June quarter 1943 to September quarter 1945, when it again commenced to rise. In the fifteen months to December 1946, clothing and footwear prices rose above the September 1945 level by 9.2 per cent. in Brisbane, and by similar amounts in the other cities. A decline in the March quarter 1947 was due to a reduction of Sales Tax on most clothing items. In June quarter 1947 clothing and footwear prices increased slightly in Brisbane, Toowoomba, Bundaberg, and Warwick, and decreased slightly in Rockhampton and Townsville.

Miscellaneous items were nearly 20 per cent. above their pre-war price level by June, 1943, and have remained fairly steady since that date, with the exception of an increase of about 1 per cent. in the March quarter 1947, due to an increase in the price of tobacco and cigarettes.

#### COMPARISON OF COSTS IN QUEENSLAND CITIES.

The following table shows the amounts, for the various Queensland cities, required in June quarter, 1947, to purchase the quantity of goods or housing which would have cost £1 in Brisbane.

#### BASIC WAGE RATES IN STATE CAPITAL CITIES.

The table on page 3 shows the Retail Price Index Number ("C" Series) for each of the six Capital Cities for the June quarter of 1947 and the prevailing basic wage rates for males prescribed by Commonwealth and State industrial tribunals respectively. The fourth column shows the amounts which would be required in Brisbane to provide a standard of living equivalent to that provided by each State Basic Wage in its own Capital City. The differences between these amounts and the State Basic Wage for Brisbane, which are given in the last column, show the margin of advantage in real purchasing power provided by the Queensland Basic Wage over each of the other State Basic Wages.

(a) The State basic wage for Adelaide was wrongly shown at £5.3.0. in the bulletin for March quarter, 1947.

In December, 1946, the Commonwealth Arbitration Court awarded an interim basic wage increase. The new interim basic wage was determined on the same principles as had been used for the existing basic wage, except that, in determining the "needs" portion of the wage, a new "Court" Index Number (Court Index-Second Series) was to be used. This index number was derived by multiplying the "C" Series Index Number by .087, instead of .081, as heretofore. The effect is to equate the "needs" wage to the equivalent of 87s.0d., instead of 81s.0d., in the Six Capital Cities during the period 1923 to 1927. To the "needs" wage was still to be added the existing "prosperity" loading, 6s.0d. in New South Wales, Victoria, and Queensland, and 4s.0d. in the other States. The application of these principles gave an increase in the Commonwealth Basic Wage of 7s.0d. in all Capital Cities, except Hobart, where it was 6s.0d. These increases operated from 1st December, 1946.

Following the Commonwealth Basic Wage rise, State Basic Wages were increased as follows:- Brisbane, 7s.0d. (from 23rd December, 1946); Sydney and Melbourne, 7s.0d. (from 1st December, 1946); Hobart, 6s.0d. (from 1st December, 1946); and Adelaide, 3s.6d. (from 7th January, 1947). The Western Australian State Court followed with an increase of 5s.0d., payable from the beginning of March, 1947.

The rise in the "C" Series Index Number during the quarter ended June, 1947, caused a "cost of living" addition of 1s.0d. to the Commonwealth Basic Wage in Melbourne, Adelaide, and Hobart. The State Basic Wages in Melbourne and Hobart (which adopt Commonwealth rates) received increases of 1s.0d., while the Adelaide State Basic Wage remained at £5.2s.0d.
